

CLOUDANT DB

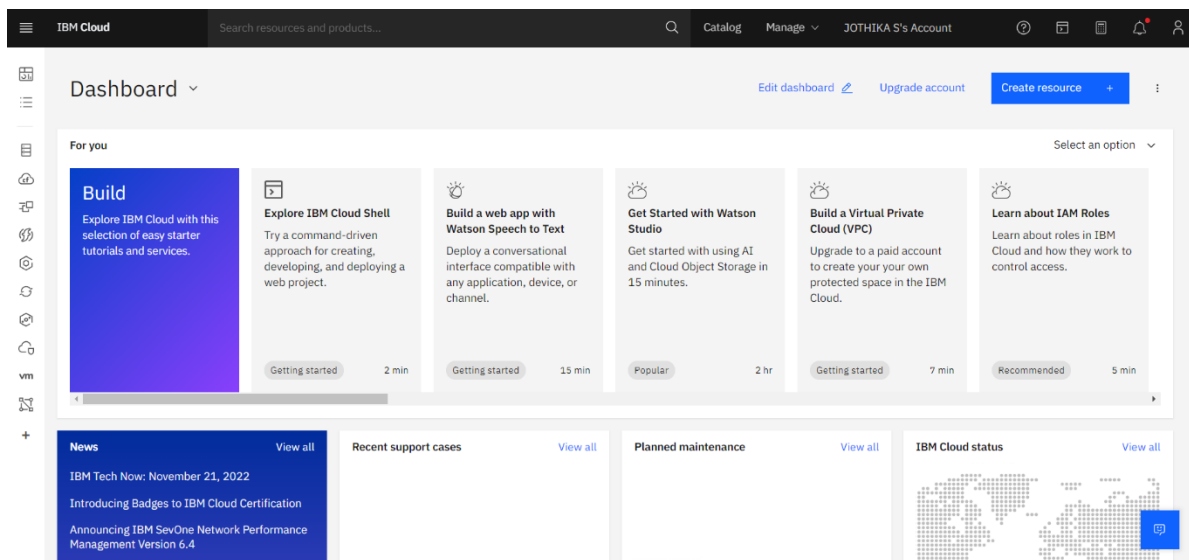

Team ID	PNT2022TMID30150
Project Name	VIRTUAL EYE - LIFE GUARD FOR SWIMMING POOLS TO DETECT ACTIVE DROWNING

STEP 1: REGISTER & LOGIN TO IBM CLOUD

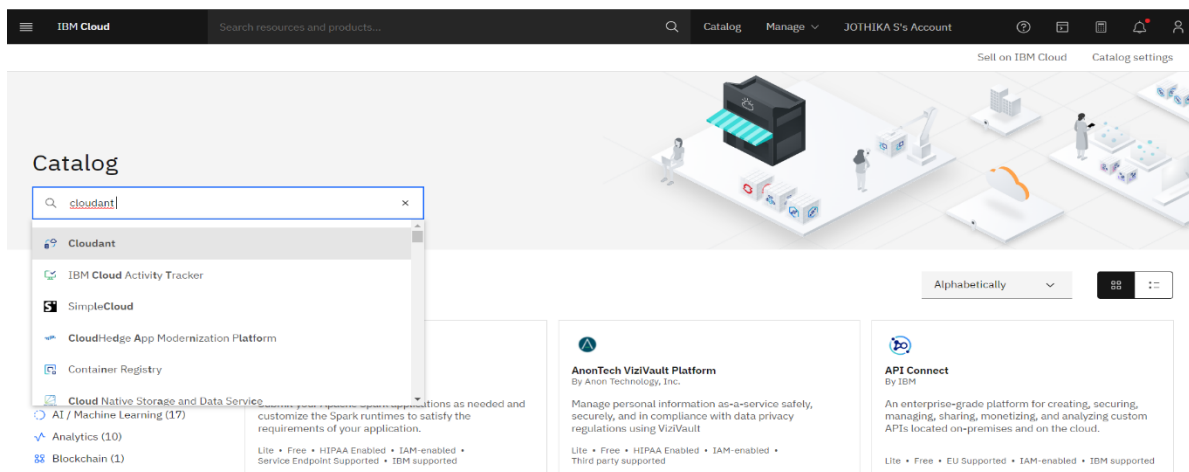

STEP 2 : CREATE SERVICE INSTANCE

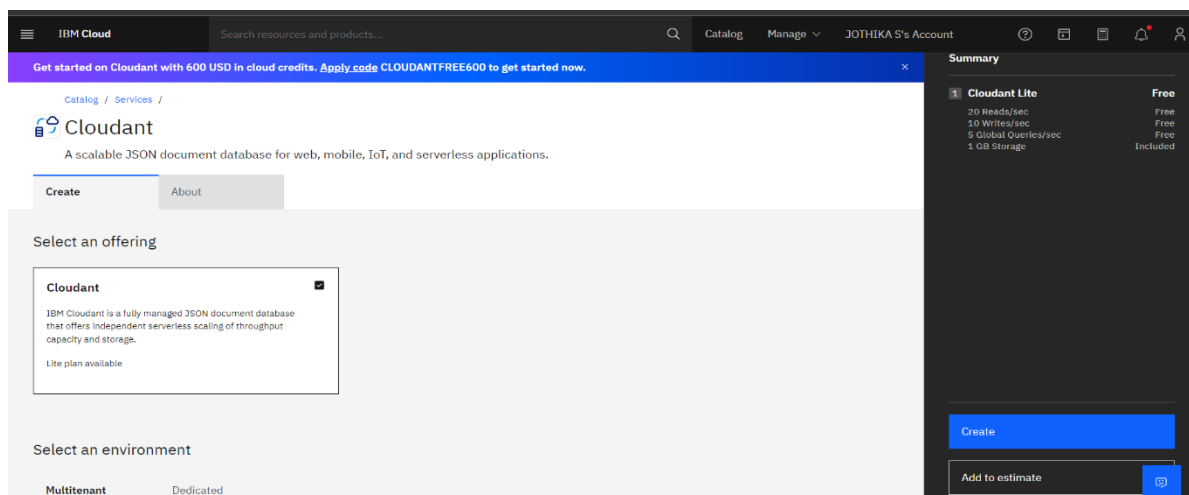

Log in to your IBM Cloud account and click on catalog

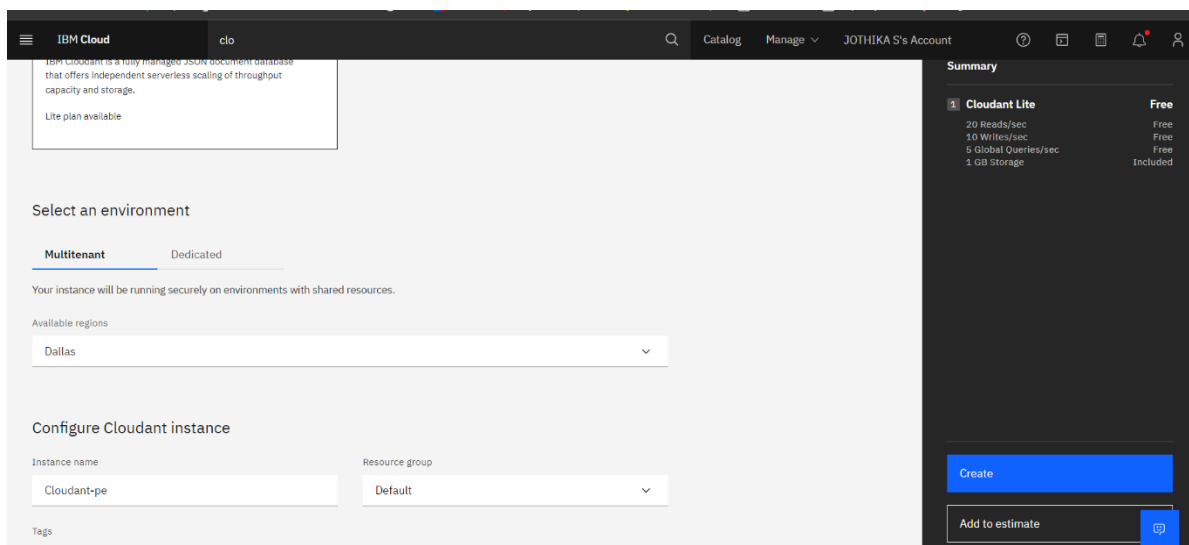

Type Cloudant in the Search bar and click to open it.

Select an offering and an environment

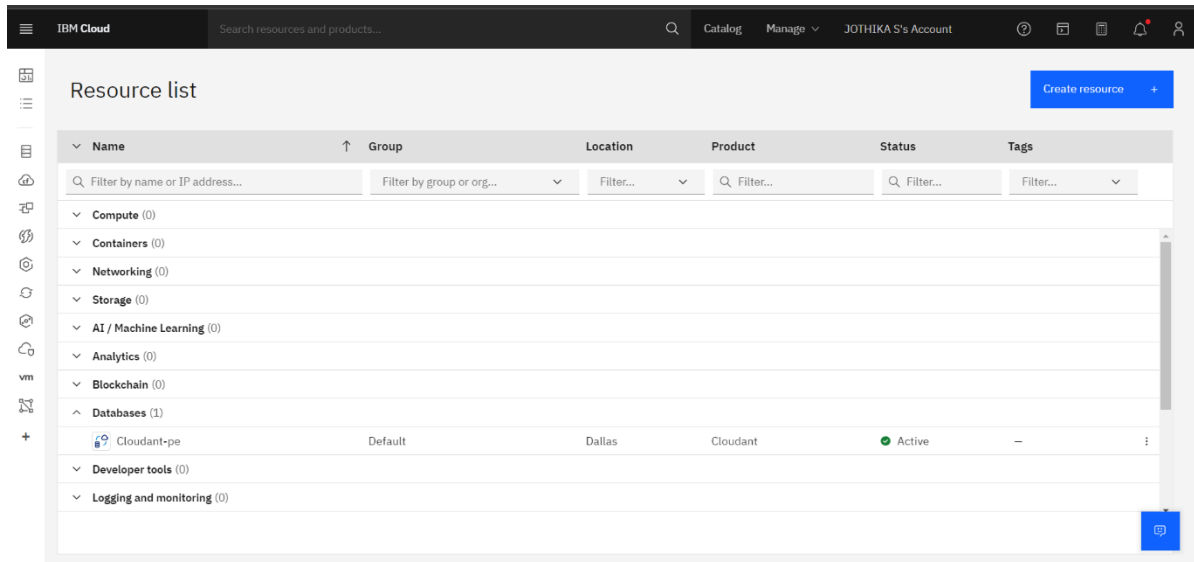

Select region as Dallas & Type an instance name then click on create service.

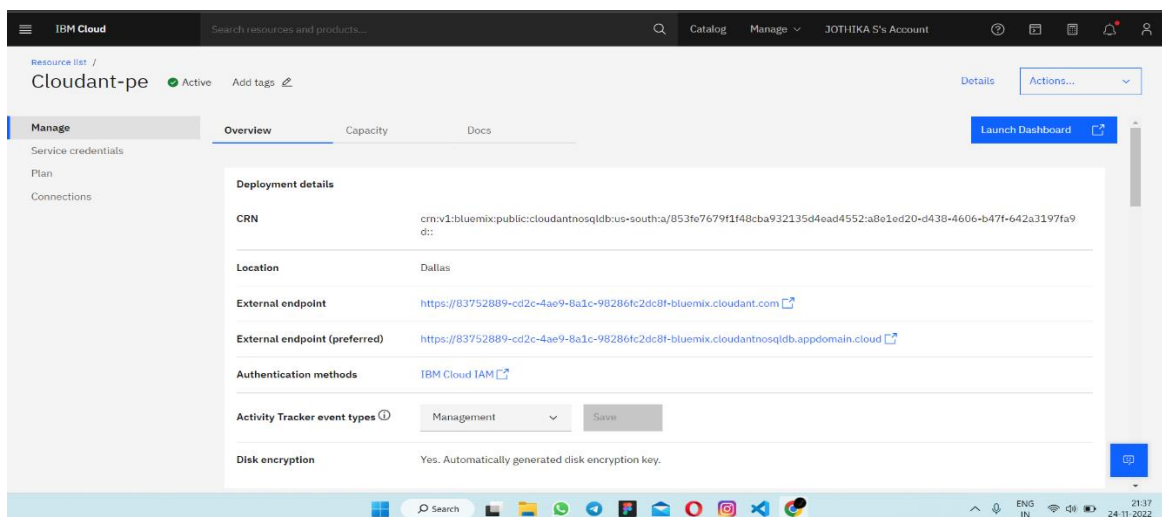

After you click create the system displays a message to say that the instance is being provisioned, which returns you to the Resource list. From the Resource list, you see that the status for your instance is, Provision in progress.

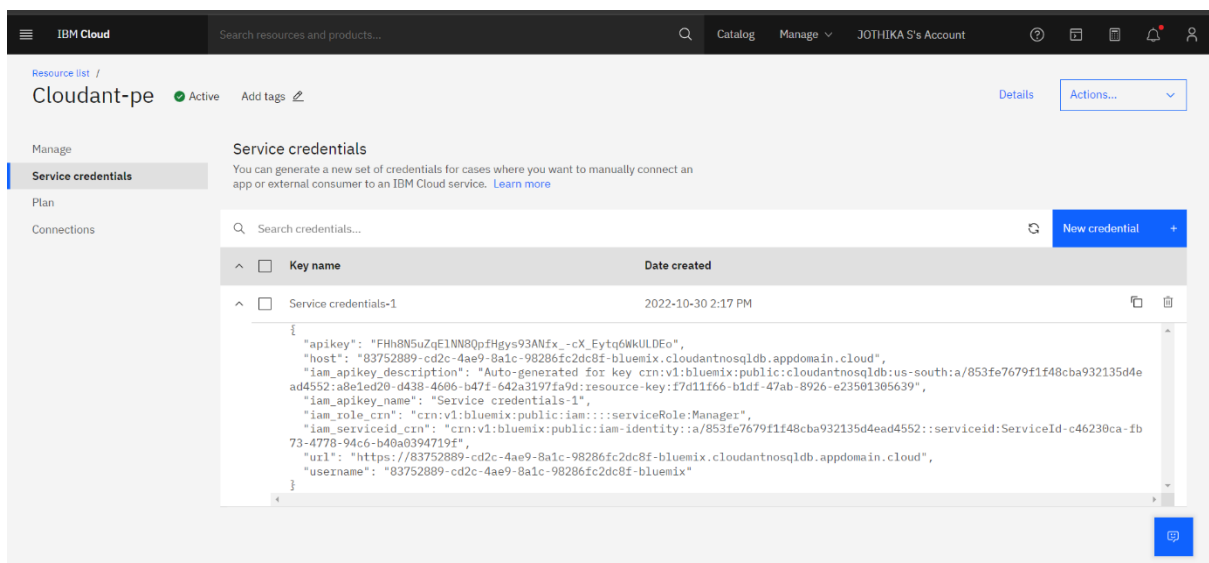

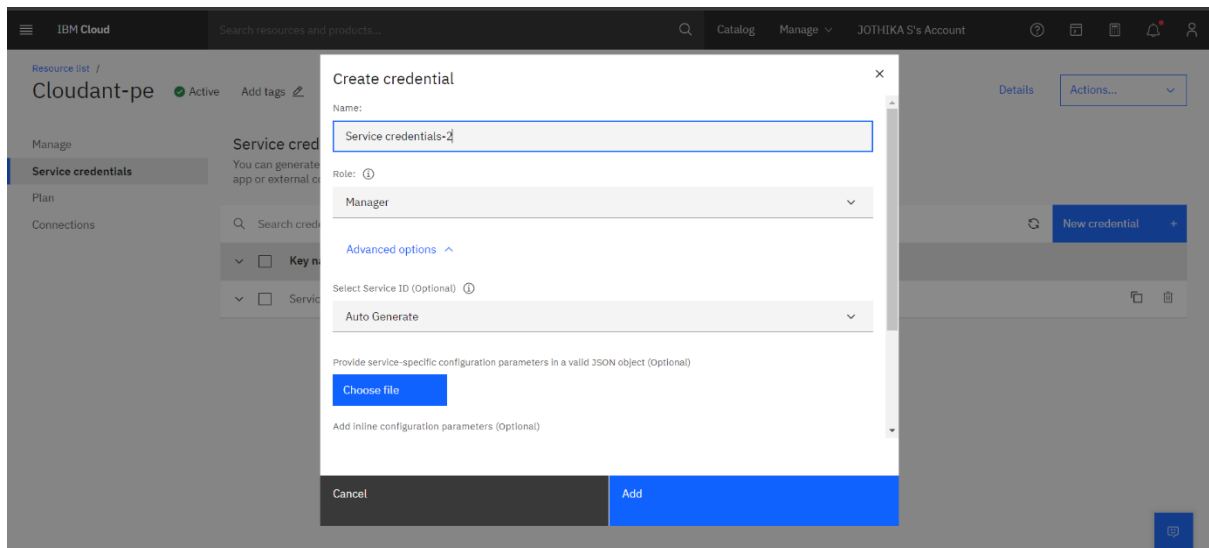

When the status changes to Active, click the instance.

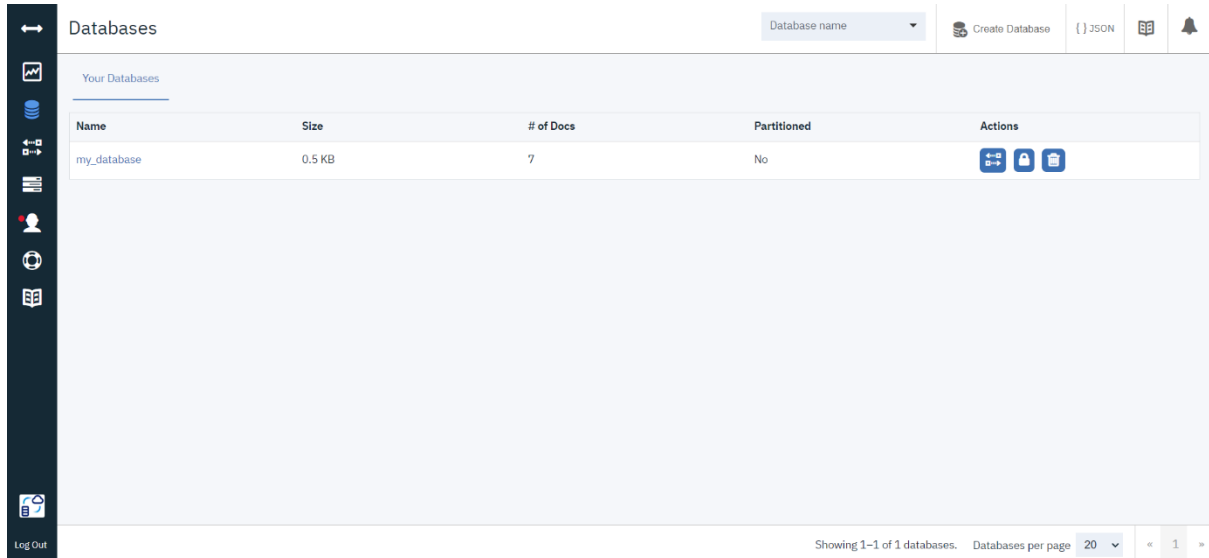

STEP 3: CREATING SERVICE CREDENTIALS

1. To create the connection information that your application needs to connect to the instance, click new credential.
2. Enter a name for the new credential in the Add new credential window.
3. Accept the Manager role.
4. (Optional) Create a service ID or have one automatically generated for you.
5. (Optional) Add inline configuration parameters. This parameter isn't used by IBM Cloudant service credentials, so ignore it.
6. Click Add.

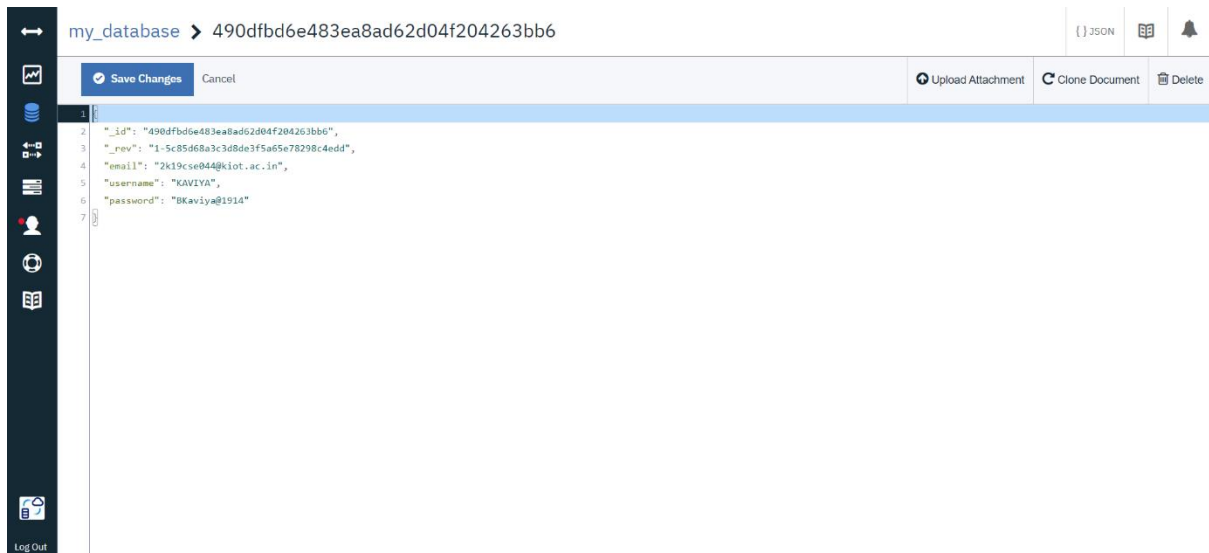

STEP 4: LAUNCH CLOUDANT DB

The screenshot shows the Cloudant 'Databases' page. On the left is a dark sidebar with navigation icons. The main area has a header 'Databases' with a 'Database name' dropdown, a 'Create Database' button, and icons for JSON, a table, and a bell. Below the header is a section 'Your Databases' containing a table. The table has columns: Name, Size, # of Docs, Partitioned, and Actions. One row is visible with the name 'my_database', size '0.5 KB', 7 documents, and it is not partitioned. The Actions column contains icons for expand, lock, and delete. At the bottom right, it says 'Showing 1–1 of 1 databases. Databases per page 20' with pagination controls.

Name	Size	# of Docs	Partitioned	Actions
my_database	0.5 KB	7	No	  

STEP 5: CREATE DATABASE

The screenshot shows the Cloudant document editor for the 'my_database' database. The breadcrumb 'my_database > 490dfbd6e483ea8ad62d04f204263bb6' is at the top. On the right are icons for JSON, a table, and a bell. Below the breadcrumb is a bar with 'Save Changes' and 'Cancel' buttons, and 'Upload Attachment', 'Clone Document', and 'Delete' buttons. The main area is a text editor showing a JSON document with 7 lines of code. The sidebar and 'Log Out' button are on the left.
